Delivering Training and Assessment Programmes in India with Australia-AAMC Training Group

When: January 2020

Where: India

Who: Learners from Sector Skills
Councils

Learners: 4

Courses: TVETC001

During COVID-19, India experienced one of the strictest lockdowns across the globe. We witnessed a time when 1.3 billion people were effectively immobilised. At AAMC Training India, we utilised this time to prepare and reach out to our learners. As a result, we enrolled learners from different Sector Skills Councils (SSCs); like Life sciences (LSSSDC), Iron and Steel (IISSSC) and Capital Goods SSC into the International Skills Training (IST) TVET training program.

Our learners were respective Sector Skills Council single point of contacts who work very closely in Training and Assessment. This gave the SSC a better insight into our offerings while we earned their trust in our programs. We received the following testimonial:

“The AAMC TVET training program proved to be very interesting yet informative. It’s well-developed content takes learners deep into knowledge and skills of a trainer. While intelligently designed assignments compels the application of the learnt skills. The host Vikasdutt conducted the classes very well. Overall, the program was very creative, fun and full of knowledge. It is surely one of the ‘Must Do’ types.”

– Dr Nivedita Murkute, Senior Director – Assessment, Accreditation and Certification.

The learners reported to AAMC that the materials provided through the program could be used and referred to at any point in a learners career, not only during the course completion timeframe.
